ORDER

BY THE COMMISSION:

On March 24, 2003, Green Mountain Energy Company (Green Mountain) filed a Letter/Petition for partial waiver of Commission bonding regulations and approval of an alternative level of security, consistent with 52 Pa. Code §54.40(d).

In response to this request, the Office of Consumer Advocate filed a Notice of Intervention. PECO Energy Company and Duquesne Light Company filed letters in protest and opposition. The Energy Association of Pennsylvania filed an Answer in opposition.

These submissions argue that the security required of an electric generation supplier needs to cover not only gross receipts tax, but also potential lost savings from PECO's Competitive Default Service customers and supplier default costs. Other issues of fact may need to be addressed regarding the appropriate level of financial security to be submitted and maintained by Green Mountain.

The instant Letter/Petition shall be assigned to the Office of Administrative Law Judge for hearings and a recommended decision so that the Commission may decide this matter no later than October 30, 2003. Issues to be considered within this proceeding include, but are not limited to, the following:

- Any potential for "lost customer savings";
- Any impact the PECO CDS program has or may have on potential liability to Green Mountain;
- Whether the Commission's financial security requirements are duplicative of PECO's CDS program and/or PJM financial security requirements;
- The overall cost to Green Mountain regarding financial security related to its EGS business;
- Green Mountain's credit history; and,
- The frequency of review of Green Mountain's level of financial security.

As Green Mountain's currently effective letter of credit expires on November 4, 2003, it is imperative that hearings be concluded in a manner that will allow the Commission to render a decision no later than October 30, 2003;**THEREFORE,**

IT IS ORDERED:

1. That the Letter/Petition filed by Green Mountain be assigned to the Office of Administrative Law Judge for hearings and a recommended decision so that the Commission may decide the matter no later than October 30, 2003.

James J. McNulty

Green Mountain Energy Company's
Petition for Abeyance

SECRETARY'S BUREAU 03 JUL 22 PM 4:05

NOW COMES Green Mountain Energy Company ("Green Mountain"), and pursuant to 52 Pa. Code § 5.41 petitions the Pennsylvania Public Utility Commission ("Commission") to hold the above-captioned matter in abeyance until revisions to the bonding regulations have become final.

1 On March 24, 2003, Green Mountain filed with the Commission its Petition For Partial Waiver Of The Provisions Of The Commission's Regulations At 52 Pa. Code § 54.40 (Relating To Bonds Or Other Security).

2. Green Mountain has received answers, protests and oppositions from Duquesne Light Company ("Duquesne"), the Office of Consumer Advocate ("OCA"), the Energy Association of Pennsylvania ("EAP") and PECO Energy Company ("PECO").

DOCUMENT

3. Each of the parties urged the Commission to either deny Green Mountain's request to reduce its security requirement or to defer action until the Commission's proposed rulemaking regarding Section 54.50 of Title 52 of the Pennsylvania Code is final. *Advance Notice of Proposed Rulemaking for Revision of*

Chapter 54 of the Pennsylvania Code Pertaining To Electric Generation Supplier Licensing, Docket Nos. P-00021938 and L-00020158.

4. The proposed rulemaking directly addresses why the bonding is necessary, what the Commission intends the bond to cover and the Commission's view of the proper bonding level. The proposed rulemaking calls into question general issues of Commission policy and whether the Commission intends to move in a different direction.

5. On June 23, 2003, the Commission issued an order directing the instant matter to hearing in order to permit a final Commission order no later than October 30, 2003.

6. However, because the Commission intends to revise the current regulations through the proposed rulemaking, moving forward with Green Mountain's petition likely will be viewed as a test case for proposed regulations.

7. Should this matter be viewed as a test case for the rulemaking, important issues of Commission policy will be vetted at Green Mountain's expense, rather than in (or in addition to) the rulemaking proceeding.

8. As a precautionary measure, other electric industry stakeholders will feel compelled to join this proceeding in case this matter sets precedent for the rulemaking. This is evidenced by the participation of the Energy Association of Pennsylvania.

9. Such increased interest necessarily will increase the expense and effort involved in litigating Green Mountain's petition. Furthermore, although Green Mountain fully intended to present evidence as to why it should be granted a waiver of the current bonding level, the Company never intended to underwrite a discussion better suited to the rulemaking proceeding.

10. Moreover, given the interest level already expressed in this proceeding, by the time this proceeding goes to hearing, Green Mountain will be required to share its confidential financial data with its competitors and much of Pennsylvania's electric industry.

11. Green Mountain has no desire to incur the expense of litigating the policy arguments of the proposed rulemaking. To the contrary, Green Mountain is willing and eager to allow the proposed rulemaking to take its natural course through the appropriate comment and review process.

12. In fact, the final revisions to the bonding regulation may address Green Mountain's concerns in a satisfactory manner, thereby obviating the need to pursue a waiver of the Commission's regulations.

13. Given the October 30, 2003 deadline of the Commission's order, Green Mountain understands the Commission's concern that the Company's security not lapse. To assuage that concern, Green Mountain is willing to make several commitments at this time.

14. Green Mountain will maintain its current bonding level of $1.8 million until such time as the final regulations require a different level or the Commission otherwise allows Green Mountain to implement a reduction.

15. Green Mountain also will commit to full and timely payment of its estimated Gross Receipts Tax ("GRT"), as required under Pennsylvania law. Green Mountain has a history of making full and timely payments of its GRT.

16. Additionally, Green Mountain is willing to provide the Commission with quarterly updates on Pennsylvania gross receipts if the Commission would find such reports useful.

17. As stated above, each of the parties opposing Green Mountain's filing suggested delaying this proceeding until the Commission had the opportunity to review comments regarding the proposed rulemaking and issued a final rulemaking on this subject.

18. Counsel for Green Mountain has contacted the other parties to this proceeding and has been authorized to indicate that Duquesne Light Company and the Energy Association of Pennsylvania support this petition for abeyance.

19. Furthermore, the other parties, the Office of Consumer Advocate and PECO Energy Company, have no objection to holding this matter in abeyance until the rulemaking has become final.

WHEREFORE, because the pending rulemaking is the proper forum to address the generic issues of policy that will necessarily be raised in this proceeding, Green Mountain Energy Company respectfully requests that the Commission grant Green Mountain's Petition for Abeyance and hold this matter in abeyance until the Commission issues its revisions of 52 Pa. Code § 54.40 through a final rulemaking.

Respectfully submitted,
