

**FUEL SWITCHING WORKING GROUP**  
**Docket No. M-00051865**  
**Response of**  
**PECO Energy Company**  
**To PUC Staff Data Requests**

**March 12, 2010**

- 1) Please provide the number of Pennsylvania customers in each EDC service territory that have access to natural gas. We define customers with access to natural gas as those customers who do not currently take natural gas service, but have the ability to connect to reasonably adjacent natural gas main.

**Response:** There are approximately 117,000 Pennsylvania customers in PECO Energy Company's service territory that have access to natural gas. This number does not include customers located in PECO's electric service territory who are served by another NGDC.

- 2) Please provide the natural gas appliance penetration rates (by NGDC, if available) for those customers who do subscribe to natural gas service.

**Response:** The natural gas appliance penetration rate for gas water heaters is 52% of customers who subscribe to natural gas service from PECO. The natural gas appliance penetration rate for gas heating is 88% of customers who subscribe to natural gas service from PECO.
