

## CHARGE Conference Call

March 24, 2011 – 9:30 a.m.

Call-in number: 1-866-618-6746 and Access Code: 6060145

### Topics for Discussion

#### 17. EGS Marketing Activities

- PUC adopted guidelines on November 4, 2010, which is available at the following link:  
<http://www.puc.state.pa.us/general/ConsolidatedCaseView.aspx?Docket=M-2010-2185981>
- Proposed rulemaking order adopted by PUC at February 10, 2011 Public Meeting; copy of entered order is attached; can be accessed on OCMO page and at the following link:  
<http://www.puc.state.pa.us/general/ConsolidatedCaseView.aspx?Docket=L-2010-2208332>
  - Comments will be due 60 days after publication in Pa. Bulletin, which will be at least a couple of months due to requirements of regulatory review process
- Staff is closely monitoring EGS marketing activities to: 1) immediately resolve serious concerns; 2) refer matters as necessary to prosecutory staff for appropriate handling; and 3) prepare report for PUC due in April 2011 about the use of unlicensed independent contractors by licensed EGSs

#### 30. Estimated State Tax Amount on Bills

- Question has arisen about whether the presentation of “estimated total state taxes” on residential bills is required for generation charges of EGS as there is no standard treatment among EGSs; more recently, EDEWG asked CHARGE to resolve issue so that requirement for tax field on EDI 810 Bill Ready Invoice can be eliminated
  - Components of EDC’s “estimated total state taxes” components are Capital Stock, Property Tax-Local and PURTA, State Unemployment Compensation, PA State Income Tax, and Gross Receipts Tax
  - Resolution of this issue will not affect presentation of GRT by EGSs
  - Staff is reviewing statute and regulations to offer guidance to EGSs on issue of whether their state taxes (other than GRT) must be displayed
- EGSs are either not populating the state tax field or are populating it with zero; EGS prices are computed using different methods, raising questions about whether requirement is practical; no party expressed desire to require EGSs to show “estimated total state taxes”

- Staff has gathered information and will seek guidance from Commission

**31. Eligible Customer List**

- PUC adopted final order on November 12, 2010, which is available at the following link:  
<http://www.puc.state.pa.us/general/ConsolidatedCaseView.aspx?Docket=M-2010-2183412>
- OCA and PA Coalition Against Domestic Violence filed Petitions for Review with Commonwealth Court, which has granted stay of November 12, 2010 order
- Commission issued Secretarial Letter on February 15, 2011 clarifying effect of stay (Docket No. M-2010-2183412) and has filed an Application for Remand with Commonwealth Court

**33. Last-In Enrollments**

- Spreadsheet was previously circulated to show how EDCs handle multiple enrollments for the same customer before the 16-day cut-off date
- Group has generally discussed value of standardizing enrollment process going forward; benefits of standardization were identified
- Issue was discussed during calls on April 29, May 13, May 27 and June 10, 2010; summary of discussion appears in recaps for those calls
- Staff proposes eliminating this issue from the agenda subject to any party asking to have it placed on future agenda; does not seem to be a high priority for uniformity; the key is that customers should be shifted to the EGS from whom they have chosen to receive service

**34. Mixed Meter – EGS Authority**

- Questions have been raised about whether EGSs must have authority to serve residential customers when a residential customer is served as part of a mixed meter situation
- While the PUC expects EGSs to seek amendments to licensing authority in these situations, Staff has indicated that it may be feasible to exempt compliance with inapplicable residential consumer protection requirements in Chapters 54 and 56; and Staff continues to have questions about how EDCs bill these customers
  - EGSs still desire clarification of whether license must be amended and whether they are required to compliance with Chapters 54 and 56 in these situations
  - Staff will pursue desired clarifications, and has noted that it will be difficult to provide a bright line defining incidental service, especially for purposes of Chapter 56
- Staff update on issue

**37. Supplier Consolidated Billing Implementation**

- EDEWG document summarizing issues that need to be addressed for full implementation of supplier consolidated billing was circulated on August 25; and Blue Star provided responses based on Illinois experience which were distributed on October 25
- Both documents are available at links next to the agenda for the October 28 call at [http://www.puc.state.pa.us/electric/electric\\_CompetitiveMarketOversight.aspx](http://www.puc.state.pa.us/electric/electric_CompetitiveMarketOversight.aspx)
- Currently PPL has an interim structure in place allowing Blue Star to implement SCB
- Staff has summarized results of surveys that were done of EGSs regarding interest in SCB and will be reaching out to EDCs to complete the survey process as to capabilities
  - Of 18 EGSs who responded to surveys, 10 noted that they currently utilize SCB in Pennsylvania or another state; 9 said they are definitely interested and would probably utilize SCB if it were available in PA; 2 are possibly interested; and as to timing, 6 indicated they might use it within the next year
- Future work will be coordinated with EDEWG
- Existence and status of SCB mechanisms in restructuring implementation plans will be considered; any interested party is free to formally petition the Commission on this issue in the event that the CHARGE process is deemed too slow

- Staff has gathered additional information and sought guidance from Commission to gain a sense of the priority nature of this matter and the Commission’s preference for how issues are addressed, i.e. through a formal petition by an interested party; a Commission-initiated investigation; or working group discussions/report
- Staff update on issue

**43. Displaying Prices on PAPowerSwitch**

- Column is being added for EGSs to show introductory price, if applicable, to promote consistency in the way prices are displayed
- Sorting capability is being added for all fields so that customers may view EGSs in an order that differs from alphabetical

**44. Net Metering Customers**

- Questions have been raised by customers who have net metering arrangements with EDCs and then switched to EGSs without entering into net metering contracts with the EGSs; staff noted the need for customers to make these arrangements with EGSs before they switch
  - PECO and PPL discussed their efforts to educate customers at the time they sign a net metering contract and during the enrollment process
  - Staff encouraged EGSs to also ensure that customers are aware before they switch that if they are on a net metering tariff, they will no longer receive energy credits from the EDC; it is up to EGSs if they want to offer energy credits to the customer
- EDEWG is looking at this from the standpoint of having information provided in an EDI segment on enrollment response and in historical usage transaction so that EGSs are aware that a customer is net-metered; will be discussed at next meeting on March 3
- PECO has inserted language into confirmation letter: “If you are a PECO Net Metering/Renewable Service customer, you will no longer receive net meter credits from us after switching to an EGS. PECO will provide you with a final credit for any energy you produced prior to the switch. You should contact your EGS to find out if they offer any credits for energy produced.”

**45. Accelerating Supplier Switching Timeframes**

- Discussion of enrollment process/supplier switching timeframes, as outlined in the attachment

**46. Statewide Investigation**

- PUC will launch statewide investigation this spring, per FirstEnergy merger order, Docket No. A-2010-2176520, to ensure properly functioning and workable competitive retail electricity market exists in the Commonwealth
- Investigation will examine both the legislative and regulatory framework behind Pennsylvania's retail market, including an analysis of the current default service model and whether, as currently structured, that model is hindering competition
- Staff expects Commission action by early May

**General Matters**

**A. New Issues**

- Any new issues or questions about issues previously discussed on CHARGE calls should be submitted to [ra-ocmo@state.pa.us](mailto:ra-ocmo@state.pa.us)
