

CHARGE Conference Call

April 29, 2010 – 9:30 a.m.

Call-in number: 1-866-618-6746 and Access Code: 6060145

Topics for Discussion

1. Eligible Customer List

- Conference calls held on April 16 and 22
- Recap of discussion circulated by Ritchie Hudson on April 23 and followed up on by Joe Bisti on April 28
- General discussion/feedback before Staff submits recommendation to PUC

2. Default Service Bid Information

- Staff plans to circulate a proposal for discussion by CHARGE on May 27 call

3. Estimated State Tax Amount on Bills

- Question has arisen about whether the presentation of “estimated total state taxes” on residential bills is required for generation charges of EGS as there is no standard treatment among EGSs
- PUC staff is studying issue to determine what EDCs include in “STAS” and conducting further review of statute and regulations to offer guidance to EGSs on this issue

4. EGS Marketing Activities

- By April 30, Staff will circulate draft best practices/interim guidelines for discussion during May 13 CHARGE call
- Staff will invite SEARCH (natural gas working group) members to provide feedback and participate in call to determine feasibility of recommending application to both electric and natural gas industries

5. Historical Usage Requests

- Concern has been raised about refusal of EDCs to release historical usage information or to charge exorbitant fees for the release of information when it has been previously restricted by the customer

6. Last-In Enrollments

- Question has been raised about whether EDCs receiving multiple enrollments for the same customer before the 16-day cut-off date follow the “last in” rule and enroll the customer with the last EGS or if they wait until the end of the 10-day confirmation window
- Example: EGS1 submits enrollment for a January 2011 flow date and prior to 16-day cut-off date, EGS2 submits enrollment for January 2011 flow date
 - Is the EGS1 enrollment cancelled and the customer enrolled with EGS2?
 - Or does the EDC wait for the expiration of the 10-day confirmation period to enroll the customer with EGS2?

7. Mixed Meter – EGS Authority

- Questions have been raised about whether EGSs must have authority to serve residential customers when a residential customer is served as part of a mixed meter situation
- Staff’s guidance has been that if the customer is served under a Residential rate schedule, the EGS should have authority under the license to serve residential customers

8. Communications about EGS Plans

- General discussion re: communications with EDCs and the PUC about EGS plans to make offers to customers in 2011

9. CHARGE Contact List
