

Attachment 1 - Stats on Operators

STATE JURISDICTION AND AGENT STATUS OVER NATURAL GAS FACILITIES AS OF DECEMBER 31, 2011

Operator Type	State Agency Jurisdiction/ Agent Status		No. of Operators	Operators Inspected		No. of Inspection Units	Units Inspected	
	No ¹	Yes		#	%		#	%
	Distribution							
Private		X/60105	27	26	96.3%	27	26	96.3%
Municipal		60105/60106	2	2	100.0%	2	2	100.0%
Master Meter	B		0	0	N/A	0	0	N/A
LPG		X/60105	1	1	100.0%	1	1	100.0%
LNG		X/60105	3	3	100.0%	3	3	100.0%
Other	B		2	0	0.0%	2	0	0.0%
Transmission								
Intrastate		X/60105	14	12	85.7%	14	12	85.7%
Interstate	F		0	0	N/A	0	0	N/A
Interstate LNG	F		0	0	N/A	0	0	N/A
Other								
Gathering Lines	B		0	0	N/A	0	0	N/A
Offshore Facilities	A		0	0	N/A	0	0	N/A
Total			49	44	89.8%	49	44	89.8%

¹Codes: A - None in state and does not have jurisdiction;
 B - State does not have jurisdictional authority (Provide current status or action being taken to obtain authority in notes section below)
 F - No, State is currently not an interstate agent.

X/60105P = Yes, I have Section 60105 (Certification) over some of the operator type (meaning: I have 60105 authority over some, but not all of this operator type and do not have a 60106 agreement with PHMSA to inspect them). These operators are identified in the notes below.

X/IA - Yes I have Interstate Agent jurisdiction over this type of operator

Distribution "Other" - ie Co-ops, Public Utility Districts, etc.

States should explain any special circumstances

General Instructions - All above facilities should only include facilities as defined by federal pipeline regulations and should not include extended jurisdiction by state regulation.

Attachment 1 Notes:

State obtained jurisdiction of Gathering lines in Class 2-4 locations, as well as Municipal and Co-ops in 2012.
