# **RATE COMPARISON REPORT**

April 15, 2018

*Prepared By:*

The Bureau of Technical Utility Services

Pennsylvania Public Utility Commission  
Rate Comparison Report  
April 15, 2018

Prepared by:  
The Bureau of Technical Utility Services

The Honorable Tom Wolf  
Governor of Pennsylvania

The Honorable Michael Stack  
Lieutenant Governor of Pennsylvania

Members of the General Assembly,

I am pleased to submit for your review the Commission's Rate Comparison Report for 2018.

Act 201, signed into law on Nov. 30, 2004, added Section 308.1(b) to the Public Utility Code, 66 Pa. C.S. §308. Section 308.1(b) requires the Public Utility Commission (PUC) to file an annual Rate Comparison Report (Report) with the Governor and the General Assembly on April 15 every year. The Report compares all categories of ratepayers for all electric and gas public utilities so that a reasonably accurate comparison of rates can be made between similar ratepayers receiving services in different service areas of the Commonwealth.

The first section of the Report provides information on electric service, while the second section provides information on natural gas service. Each section contains comparison tables and graphs of all regulated Electric Distribution Companies (EDCs) and Natural Gas Distribution Companies (NGDCs), followed by individual company information.

Sincerely,

A handwritten signature in black ink, appearing to read "Gladys M. Brown". The signature is fluid and cursive, with the first letters of each word being capitalized and prominent.

Gladys M. Brown  
Chairman, Pennsylvania Public Utility Commission

## Introduction

To achieve an accurate comparison, the Commission established ratepayer categories and monthly usage parameters. These usage parameters include a demand component where applicable. The Commission also established that the rates used would be as of Jan. 31, 2018 and would be based on the default service price. All prices are for ratepayers not currently purchasing their gas or electric generation from competitive suppliers (non-shoppers) and reflect a monthly bill at the given usage parameters. The ratepayer classifications and usage assumptions are detailed below.

<u>Ratepayer Classification</u>	<u>Electric Usage</u>	<u>Gas Usage</u>
1. Residential	500 kWh	2 Mcf/month
2. Residential Heating	2,000 kWh	15 Mcf/month
3. Small Commercial	5 KW demand 1,000 kWh	150 Mcf/year
4. Medium Commercial	25 KW demand 10,000 kWh	500 Mcf/year
5. Large Commercial	500 KW demand 200,000 kWh	9,000 Mcf/year
6. Industrial	1,000 KW demand 400,000 kWh	>9,000 Mcf/year
7. Public Street Lighting (sodium vapor)	250 watts	N/A

kWh = Kilowatt hour, a standard measure of electricity usage calculated by multiplying total wattage by hours of use divided by 1,000, e.g. one 100-watt bulb will use 24 kWh in one month (30 days) if used eight hours a day [(100\*240)/1,000 = 24 kWh].

KW = Kilowatt (1000 watts), used as a demand measure for larger users of electricity. Essentially, it is a measure of the electrical capacity required by the customer at any instantaneous moment.

Mcf = 1,000 cubic feet of gas, a standard measure of gas usage. It is the measure of the flow of cubic feet of gas through the meter.

Street lighting is determined as the cost of running one 250-watt sodium vapor light for a month.

The Commission reached out to every regulated electric and gas utility seeking the information necessary to complete this report. The Commission is grateful for the timely responses of the utility companies.

The following sections present the rate tables for each utility, so an accurate comparison between utilities can be made. Section 1 begins with a comparison table that includes all of the electric utilities. After the comparison table, Section 1 presents each of the electric utilities, in alphabetical order, with their individual rate tables and a brief description of the utility, the applicable tariff number, and any unique company-specific information that is relevant to the rate information provided. It also includes a summary of competitive supplier activity in each of the utility territories.

Section 2 contains the same information, in the same format, for the gas utilities. The only exception is the beginning comparison tables, which are divided between the 1307(f)<sup>1</sup> and Gas Cost Rate (GCR)<sup>2</sup> gas utilities. The comparison tables in the beginning of each section show the total charges for each rate classification between all of the electric and gas utilities. The individual company rate tables detail the separate pieces that make up the total charges for each rate classification. The tables for the 1307(f) companies include a summary of competitive supplier activity in each of those territories.

While the beginning tables of each section present the easiest measure of comparison for rates, the Commission encourages readers of this report to examine the full contents of Sections 1 and 2 to understand the components that make up the rate for any company and any unique situations that may affect the company's rates.

The Electric and Natural Gas Choice and Competition Acts, of 1997 and 1999 respectively, provided a framework that allowed retail customers to have direct access to competitive suppliers of electricity and gas. The laws – which apply to all EDCs in the Commonwealth and only those NGDCs with annual revenues greater than \$6 million or smaller NGDCs who voluntarily petition the Commission to be an active participant – allow customers to purchase energy from competitive suppliers, while still having their electricity or gas delivered by their regulated distribution utility. For detailed information about competitive supplier offerings, visit [www.PAPowerSwitch.com](http://www.PAPowerSwitch.com) (electric) and [www.PAGasSwitch.com](http://www.PAGasSwitch.com).<sup>3</sup>

---

<sup>1</sup> Gas utilities with more than \$40 million in revenues and subject to rate filings under Section 1307(f) of the Public Utility Code, 66 Pa. C.S. § 1307(f).

<sup>2</sup> Gas utilities with revenues less than \$40 million that file annual GCR adjustments in accordance with 66 Pa. C.S. § 1307(e) and 52 Pa. Code § 53.66.

<sup>3</sup> Data contained in this report on the number of EGS/NGS offers being made is taken from these websites.

## Section 1: Electric Utilities

### Abbreviations Used in the Tables

- **kWh** – Kilowatt Hour – Standard unit of energy equivalent to one kilowatt of power sustained for one hour, calculated by multiplying total wattage by hours of use and then dividing by 1,000. For example, one 100-watt bulb used eight hours a day for 30 days (240 total hours) will use 24 kWh  $[(100 \times 240) / 1,000 = 24 \text{ kWh}]$ .
- **KW** – Kilowatt – Standard unit of electric power equivalent to 1,000 watts, used as a demand measure for larger users of electricity. Essentially, it is a measure of the electrical capacity required by the customer at any instantaneous moment.
- **CTC** – Competitive Transition Charge – Charge designed to recover an electric utility's transition or stranded costs associated with generation facilities that were divested as a result of the Electricity Generation Customer Choice and Competition Act, as outlined in Chapter 28 of the Public Utility Code, 66 Pa. C.S. § 2808.
- **STAS** – State Tax Adjustment Surcharge – Surcharge implemented under the State Tax Adjustment Procedure Order of the Commission dated March 10, 1970, as amended, which permits utilities to recover portions of the Corporate Net Income Tax, Gross Receipts Tax, and the Public Utility Realty Tax through a surcharge on rates charged to customers.
- **DSIC** – Distribution System Improvement Charge – Charge imposed by a utility to recover the reasonable and prudent costs incurred to repair, improve or replace eligible property that is part of the utility's distribution system.
- **EE&C** – Energy Efficiency & Conservation – Charge to fund the energy efficiency and conservation measures associated with the implementation of Act 129 of 2008, as outlined in Chapter 28 of the Public Utility Code, 66 Pa. C.S. § 2806.1.

## Electric Utilities Monthly Bill Comparison

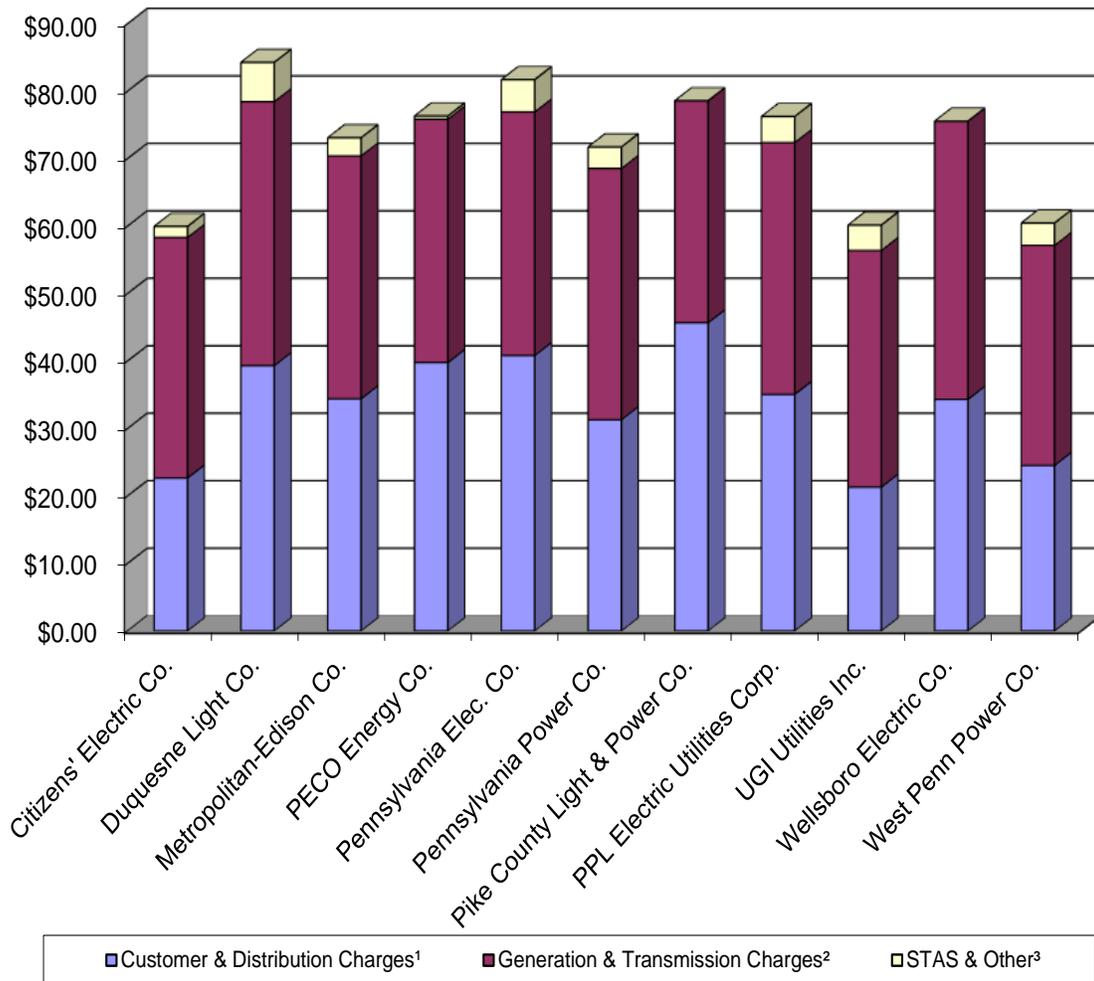

### Electric Utilities Comparison

Rate Classification	Citizens' Electric Co.	Duquesne Light Co.	Metropolitan-Edison Co. (FirstEnergy)	PECO Energy Co.	Pennsylvania Elec. Co. (FirstEnergy)	Pennsylvania Power Co. Medium Commercial (25KW Demand) using 10,000 KWH	\$928.25	\$984.94	\$822.39	\$856.94	\$927.80	\$825.56	\$1,241.73	\$926.98	\$1,062.10	\$1,214.44	\$640.68
Large Commercial (500KW Demand) using 200,000 KWH	\$17,888.88	\$18,505.10	\$16,683.79	\$14,389.32	\$17,943.69	\$16,466.12	\$19,947.85	\$14,651.46	\$15,431.35	\$23,671.33	\$10,159.47
Industrial (1000KW Demand) using 400,000 KWH	\$35,725.74	\$36,482.92	\$33,093.82	\$28,479.06	\$34,819.16	\$30,128.95	\$39,784.90	\$29,033.15	\$30,693.63	\$43,821.19	\$12,881.22
Public Street (Sodium Vapor Service) at 250 Watts	*	\$18.03	\$20.59	\$11.45	\$21.21	\$20.75	\$36.12	\$29.00	\$23.95	\$12.94	\$20.53

\*Citizens does not tariff 250 watt lights, only 100 watt @ flat rate of \$11.89 per month and 400 watt @ 25.41 per month.

## Electric Utilities Residential Monthly Bill Comparison

**Electric Utilities: Residential 500 kWh  
Total Monthly Bill Calculation as of Jan. 31, 2018**

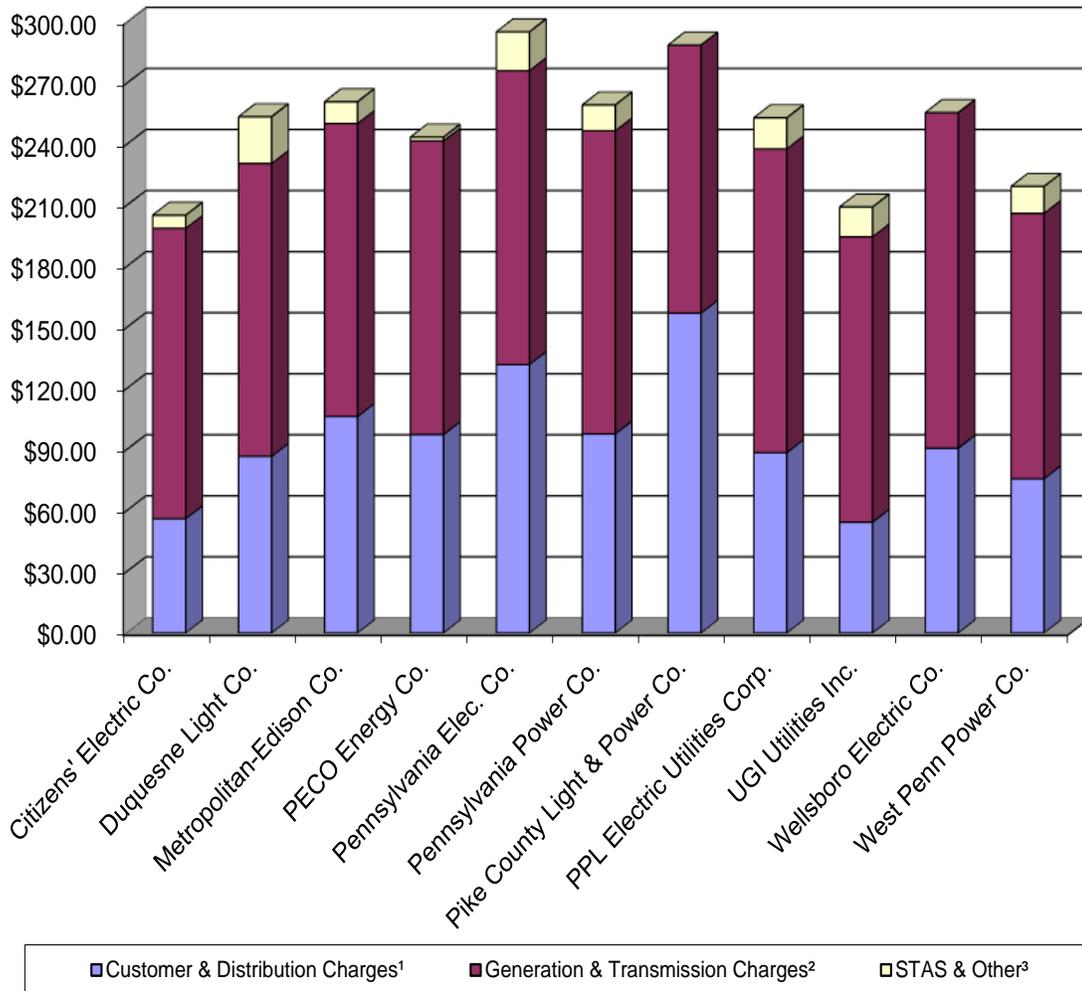

<sup>1</sup>Also includes Smart Meter Charges, Demand Charges, and DSIC.

<sup>2</sup>Also includes Default Service Support Rider.

<sup>3</sup>Other charges may include any of the following: Universal Service Charges, Education Charges, Systems Benefits Charges, Gross Receipts Tax, EE&C Charges, CTC, or any other surcharge or rider unique to a specific utility. Please see a utility's individual chart for a breakdown of what charges can be found on its bill.

## Electric Utilities Residential Monthly Bill Comparison

**Electric Utilities: Residential Heating 2,000 kWh  
Total Monthly Bill Calculation as of Jan. 31, 2018**

<sup>1</sup>Also includes Smart Meter Charges, Demand Charges, and DSIC.

<sup>2</sup>Also includes Default Service Support Rider.

<sup>3</sup>Other charges may include any of the following: Universal Service Charges, Education Charges, Systems Benefits Charges, Gross Receipts Tax, EE&C Charges, CTC, or any other surcharge or rider unique to a specific utility. Please see a utility's individual chart for a breakdown of what charges can be found on its bill.

## Citizens' Electric Co.

Citizens' Electric Co. (Citizens'), a subsidiary of C&T Enterprises Inc., serves about 5,800 residential, 1,100 commercial and 40 industrial customers. Its service territory consists of Lewisburg Borough and the townships of East Buffalo, Buffalo and Kelly in Union County, as well as West Chillisquaque in Northumberland County. Citizens' operates under the terms of Electric Tariff Pa. P.U.C. No. 14. With a service area of 55 square miles, Citizens' is one of the smallest electric companies, both in area and in number of customers, included in this rate comparison. C&T Enterprises Inc. is a holding company owned by the Claverack and Tri-County Rural Electric Cooperatives for their for-profit enterprises. C&T also owns the Pennsylvania utilities of Valley Energy Inc. (gas) and Wellsboro Electric Co. On April 6, 2017, the Commission approved a settlement allowing for a \$355,000 (7.6 percent) base rate increase for Citizens'.

Utility: **Citizens' Electric Co.**

Public Street* (Sodium Vapor Service) at 250 Watts										

Notes: \*Citizens does not tariff 250 watt lights, only 100 watt @ flat rate of \$11.89 per month and 400 watt @ 25.41 per month.  
 \*\*Transmission is bundled in generation rates      \*\*\*GRT - Gross Receipt Tax - 1.0626990

**Shopping Update:** As of March 2018, no EGSs were making offers to Citizens' residential customers. However, 96 commercial and industrial customers (21.7 percent of load) were using a competitive supplier. Information, including Citizens' price to compare and competitive offers, is available at [www.PAPowerSwitch.com](http://www.PAPowerSwitch.com).

## Duquesne Light Co.

Duquesne Light Co. (Duquesne), a subsidiary of Duquesne Light Holdings, serves about 531,000 residential, 54,300 commercial and 1,120 industrial customers. Duquesne's service territory consists of parts of Allegheny, Beaver and Westmoreland counties in Western Pennsylvania. Duquesne operates under the terms of Electric Tariff Pa. P.U.C. No. 24.

Utility: **Duquesne Light Co.**

Notes: \*All Duquesne customers with a peak demand greater than 300 KW are enrolled in an hourly price plan for the generation component of their bill.  
The generation rate used for this report was a calculated average based on historic hourly price service data throughout the past year.  
\*\*Retail Market Enhancement Surcharge - for recovery of all eligible costs associated with enhancing the competitive energy market in Pennsylvania.

**Shopping Update:** As of March 2018, 112 EGS offers were being made to Duquesne's customers. Furthermore, 184,638 customers (31 percent of customers; 65.7 percent of the load) were using a competitive supplier. Information, including Duquesne's price to compare and competitive offers, is available at [www.PAPowerSwitch.com](http://www.PAPowerSwitch.com).

## Metropolitan Edison Co.

Metropolitan Edison Co. (Met-Ed), a subsidiary of FirstEnergy Corp., serves about 497,000 residential, 65,900 commercial and 870 industrial customers. With a total service area of about 3,300 square miles, Met-Ed's service territory consists of parts of the Easton, Lebanon and Reading areas in Eastern Pennsylvania and the York Area in South Central Pennsylvania. Met-Ed operates under the terms of Electric Tariff Pa. P.U.C. No. 52. FirstEnergy, headquartered in Akron, Ohio, is one of the country's largest investor-owned electric systems, serving approximately 6 million customers through its 10 electric utility operating companies in Pennsylvania, Ohio, Maryland, West Virginia and New Jersey. Other FirstEnergy electric utility operating companies in Pennsylvania are the Pennsylvania Electric Co., Pennsylvania Power Co. and West Penn Power Co.

Utility: **Metropolitan Edison Co.**

### Default Rate Schedule for Electric Service in the Commonwealth of Pennsylvania

#### Rates for Default Service

Rate Classification	Customer Charge	Distribution Charges	Generation Charges	CTC (if applicable)	DSSR*	EE&C Charges	Smart Meter Charge	Universal Service	STAS	TOTAL
Residential using 500 KWH	\$11.25	\$24.00	\$34.08		\$1.91	\$1.12	(\$0.83)	\$1.57		\$73.10
Residential Heating using 2000 KWH	\$11.25	\$96.00	\$136.32		\$7.62	\$4.46	(\$0.83)	\$6.26		\$261.08
Small Commercial (5KW Demand) using 1000 KWH	\$21.88	\$40.69	\$62.26		\$1.64	\$1.14	(\$0.86)			\$126.75
Medium Commercial (25KW Demand) using 10,000 KWH	\$43.03	\$129.92	\$622.60		\$16.30	\$11.40	(\$0.86)			\$822.39

Industrial (1000KW Demand) using 400,000 KWH	\$951.53	\$3,074.17	\$27,832.00		\$669.00	\$568.00	(\$0.88)			\$33,093.82
Public Street (Sodium Vapor Service) at 250 Watts	\$13.81		\$6.10		\$0.16	\$0.52				\$20.59

Notes: The Large Commercial and Industrial rates are billed generation based on hourly pricing. The generation cost per kWh used to calculate the generation portion was based on the calendar year 2017 average hourly rate.  
\*Default Service Support Rider

**Shopping Update:** As of March 2018, 124 EGS offers were being made to Met-Ed's customers. Furthermore, 192,333 customers (33.8 percent of customers; 63.5 percent of the load) were using a competitive supplier. Information, including Met-Ed's current price to compare and competitive offers, is available at [www.PAPowerSwitch.com](http://www.PAPowerSwitch.com).

## PECO Energy Co.

PECO Energy Co. (PECO), a subsidiary of the Exelon Corp. (Exelon), is Pennsylvania's largest electric utility, serving approximately 1.46 million residential, 150,100 small commercial and industrial, and 3,100 large commercial and industrial customers within parts of the following counties in Southeastern Pennsylvania: Bucks, Chester, Delaware, Montgomery, Philadelphia and York. PECO operates under the terms of Electric Tariff Pa. P.U.C. No. 5. PECO also provides gas service to more than 500,000 customers in the Philadelphia area. Exelon, headquartered in Chicago, is one of the nation's largest power producers, which, through its six utility operating companies, provides electric and natural gas service to roughly ten million customers in Illinois, Maryland, Washington D.C., Delaware, New Jersey and Pennsylvania.

Utility: **PECO Energy Co.**

Notes: For the Large Commercial/Industrial classes, GSA 3/4 Hourly Pricing Option was used to calculate the generation charges.

\*Nuclear Decommissioning Cost Adjustment

\*\*Tax Accounting Repair Credit

\*\*\*Non-bypassable Transmission Charge

**Shopping Update:** As of March 2018, 141 EGS offers were being made to PECO's customers. Furthermore, 559,350 customers (34 percent of customers; 61 percent of the load) were using a competitive supplier. Information, including PECO's price to compare and competitive offers, is available at [www.PAPowerSwitch.com](http://www.PAPowerSwitch.com).

## Pennsylvania Electric Co.

Pennsylvania Electric Co. (Penelec), a subsidiary of the FirstEnergy Corp., serves approximately 502,000 residential, 84,000 commercial and 850 industrial customers. Penelec's service territory consists of 17,600 square miles spanning more than 30 counties throughout mostly rural areas of Northern and Central Pennsylvania. Penelec operates under the terms of Electric Tariff Pa. P.U.C. No. 81. FirstEnergy, headquartered in Akron, Ohio, is one of the country's largest investor-owned electric systems, serving approximately 6 million customers through its 10 electric utility operating companies in Pennsylvania, Ohio, Maryland, West Virginia and New Jersey. Other FirstEnergy electric utility operating companies in Pennsylvania are the Metropolitan Edison Co., Pennsylvania Power Co. and West Penn Power Co.

Utility: **Pennsylvania Electric Co.**

Information, including West Penn's price to compare and competitive offers, is available at [www.PAPowerSwitch.com](http://www.PAPowerSwitch.com).

## Section 2: Gas Utilities

### Abbreviations Used in the Tables

- **Mcf** – One Thousand Cubic Feet of natural gas – Standard measure of volumetric gas usage equal to 1,000 cubic feet. A single Mcf contains a heat content of approximately one million Btu.
- **GCR** – Gas Cost Rate – Adjustment that allows natural gas utilities to recover a portion of their cost of purchased gas, which may be billed or credited to the customer to properly account for the difference between projected and actual gas costs, as provided for by 66 Pa. C.S. § 1307(e) and 52 Pa. Code § 53.66.
- **STAS** – State Tax Adjustment Surcharge – Surcharge implemented under the State Tax Adjustment Procedure Order of the Commission dated March 10, 1970, as amended, which permits utilities to recover portions of the Corporate Net Income Tax, Gross Receipts Tax, and the Public Utility Realty Tax through a surcharge on rates charged to customers.
- **MFC** – Merchant Function Charge – Charge that reflects the cost of uncollectibles associated with a natural gas utility's natural gas costs. The MFC is a component of a utility's price to compare.
- **GPC** – Gas Procurement Charge – Charge that reflects a natural gas utility's natural gas procurement costs and removes those costs from the utility's base rates to be recovered through a separate charge on a revenue neutral basis. The GPC is a component of a utility's price to compare.
- **DSIC** – Distribution System Improvement Charge – Charge imposed by a utility to recover the reasonable and prudent costs incurred to repair, improve or replace eligible property that is part of the utility's distribution system.

Industrial									
> 9000 MCF/year (monthly bill)									

**Shopping Update:** As of March 2018, no NGSs were making offers to Wally's customers. As a small gas utility with under \$6 million in annual revenues, Wally is not subject to the provisions of the Natural Gas Choice and Competition Act outlined in Chapter 22 of the Public Utility Code; however, Wally may voluntarily petition the Commission to be an active participant under the Act if it so chooses. As it becomes available, shopping information, including Wally's price to compare and competitive offers being made, may be viewed at [www.PAGasSwitch.com](http://www.PAGasSwitch.com).
