**PETITION TO INTERVENE OF THE  
COMMONWEALTH OF PENNSYLVANIA,  
DEPARTMENT OF ENVIRONMENTAL PROTECTION**

The Commonwealth of Pennsylvania, Department of Environmental Protection (the “Department”) files this Petition to Intervene in the above referenced matter pursuant to 52 Pa. Code §§ 5.71 and 5.72. In support of its Petition to Intervene in the Joint Petition of Metropolitan Edison Company, Pennsylvania Electric Company and Pennsylvania Power Company (“Joint Petitioners”) for Consolidation of Proceedings and Approval of Energy Efficiency and Conservation Plans (“EEC Plans”) the Department avers as follows:

1. Pursuant to Act 129 of 2008 and the Pennsylvania Public Utility Commission’s (“Commission”) Energy Efficiency and Conservation Program Implementation Order at Docket No. M-2008-2069887, on July 1, 2009, Joint Petitioners filed their Petition for Approval of their EEC Plans with the Commission.

2. Joint Petitioners’ EEC Plans includes energy efficiency, conservation and demand response measures that are intended to meet Act 129’s energy conservation and peak demand reduction requirements.

3. The Department is an agency of the Commonwealth, and it is entitled to intervene as of right under 52 Pa. Code § 5.72(b).

4. The Department administers several energy and environmental protection programs established by state law that provide the Department with interests of such nature that participation of the Department is in the public interest. 52 P.S. § 52.72(a)(3).

5. The Department is the primary agency under the Governor's jurisdiction charged with managing energy matters. The Department performs and administers the functions of the Pennsylvania Energy Office. 71 P.S. § 1340.504(d). The Department also has the powers and duties previously vested in the Governor's Energy Council by the Building Energy Conservation Act, 35 P.S. §§ 7201.101 *et seq.*, and the Energy Conservation and Assistance Act, 62 P.S. §§ 3011 *et seq.* 71 P.S. § 1340.504(a)-(b). The Department is responsible for the management of the Pennsylvania Energy Development Authority which, *inter alia*, provides financial support to promote clean, advanced indigenous energy resources and projects in Pennsylvania. 71 P.S. §§ 720.1 *et seq.*

6. The Department has regulatory responsibilities under the Alternative Energy Portfolio Standards Act and is to work cooperatively with the Commission to monitor the performance of all aspects of the Act. 73 P.S. § 1648.7(c). The demand-side management programs in Joint Petitioners' EEC Plans have the potential to create Tier II alternative energy credits. See, 73 P.S. § 1648.1.

7. The Department administers several provisions of the Alternative Energy Investment Act (73 P.S. § 1649.101 *et seq.*), and provides financial incentives for the purchase and installation of residential energy conservation measures. Programs implemented through Joint Petitioners' EEC Plans can overlap with the Department's programs and, if not properly harmonized, lead to inefficient expenditures of ratepayer and taxpayer funds.

8. The Department administers the Air Pollution Control Act (35 P.S. § 4001 *et seq.*) and the Clean Streams Law (35 P.S. § 691.1 *et seq.*). The purpose of these statutes is to protect and restore Pennsylvania's air and water resources. A properly designed and implemented EEC Plan can reduce fossil fuel consumption, improve air quality, reduce greenhouse gas emissions and improve water quality.

9. Individually and collectively, the Department's statutory duties create an interest that will be directly affected by this proceeding but are not adequately represented by existing participants and are of such a nature that participation of the Department is in the public interest. Thus, Department has a right to intervene under 52 P.S. § 5.72(a)(3).

WHEREFORE, the Commonwealth of Pennsylvania, Department of Environmental Protection respectfully requests that the Commission grant its Petition to Intervene.

Respectfully submitted,

*/s/ Scott Perry*
