Rolling Twelve Month Average CAIDI Index

96.46

The following programs and procedures are in place at Wellsboro Electric in an attempt to control outages, Animal related outages accounted for 19.6% of the total for this reporting period, Wellsboro has had a animal cover-out program in place for the last few years, our policy is to install an insulated animal guard on each pole mount distribution transformer that is installed, we review outage data in an attempt to find customers or a particular area that is experiencing multiple outages from animal contacts and placing animal guards at these location, also at the time we install animal guards, we also install an insulated lead wire from the transformer to the cutout and or line. All new transformers on our 12 kV system is an internally fused transformer thus preventing the need to install a fused cutout and one less piece of equipment to cover up and maintain, Equipment Failures accounted for 21.2% of our total outages for this period. This is due mainly to the failure of porcelian cutouts, Wellsboro no longer uses this style of cutout. All new cutouts are the polymer type, it is our policy to change any porcelain cutout that is on any pole that the crews work on.

Outage data is reviewed and areas that have had multiple outages from failed cutouts will either be inspected more frequently or may have a cutout replacement program issued for the area. Tree contact accounted for 17.2% of the outages, Wellsboro has a multiple year contract with Asplundh Tree Experts by the end of this contract our rural area of the system will be on a six year rotation. Unknown outages accounted for 27.8% of the total for this period, Wellsboro will review outages with an unknown cause in an attempt to find a cause for these type of outages Most of the time we will conduct a detailed pole to pole inspection of the affected line.

57.195 Reporting Requirements

Section (e) Item (5)

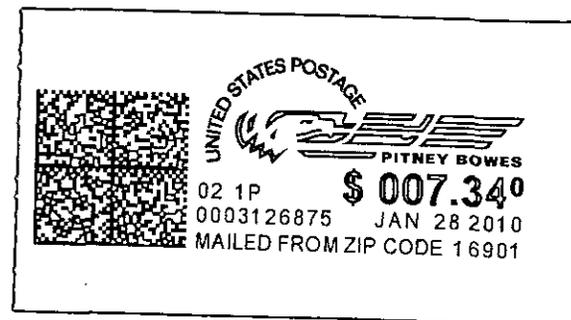

A rolling 12-month breakdown and analysis of outage causes during the receding quarter including the number and percentage of service outages, the number of customers interrupted, and customer interruption minutes categorized by outage cause such as equipment failure, animal contact, tree related, and so forth. Proposed solutions to identified service problems shall be reported.

| Outage Cause | # Customers Affected | # of Outages | Customer Minutes | Percentage of Outages |
|---------------------|----------------------|--------------|------------------|-----------------------|
| Animals | 1115 | 48 | 78880.8 | 19.6% |
