**Re: Joint Petition of Metropolitan Edison Company, Pennsylvania Electric Company, and Pennsylvania Power Company for Approval of Smart Meter Technology Procurement and Installation Plan – Docket No. M-2009-2123950
Pennsylvania Power Company Tariff Supplement No. 67 – Smart Meter Technologies Charge Rider and Smart Meter Technologies Charge Rates**

Dear Secretary Chiavetta:

Transmitted herewith for filing with the Pennsylvania Public Utility Commission ("Commission") are eight (8) copies of Supplement No. 67 to Pennsylvania Power Company's ("Penn Power" or the "Company") Tariff Electric Pa. P.U.C. No. 35 in compliance with the Commission's Order at Docket No. M-2009-2123950, which bear an issue date of June 25, 2010. The tariff changes contained in Supplement No. 67 are proposed to be effective with service rendered on or after August 1, 2010.

The purpose of Supplement No. 67 is to reflect in Penn Power's tariff the implementation of a Smart Meter Technologies Charge Rider and Smart Meter Technologies Charge ("SMT-C") rates for the Commercial, Residential, and Industrial Customer Classes for service rendered on or after August 1, 2010 through December 31, 2010. Supplement No. 67 is being filed pursuant to the Commission's Order at Docket No. M-2009-2123950 entered June 9, 2010.

Supporting details for the computation of the Penn Power SMT-C rates are provided in Exhibit A, Schedules 1, 2, 3, 4, and 5 that accompany this filing.

Enclosed please find an extra copy of this letter for you to date stamp and return in the enclosed stamped, addressed envelope in order to indicate receipt of this filing.

If you have any questions regarding the enclosed documents, please contact Roxane Hartman at (610) 921-6534.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles V. Fullem". The signature is fluid and cursive, with the first name being the most prominent.

Charles V. Fullem
Director of Rates & Regulatory Affairs-PA

 (Blank)	 70.1-70.5
Price to Compare Interim Default Service Rate Rider.....	71.1-71.7

SMART METER TECHNOLOGIES CHARGE RIDER

A Smart Meter Technologies ("SMT") Charge ("SMT-C") shall be applied as a monthly Customer charge during each billing month to metered Customers served under this Tariff determined to the nearest cent. The SMT-C rates shall be calculated separately for each Customer Class according to the provisions of this rider.

For service rendered August 1, 2010 through December 31, 2010 the SMT-C rates billed by Customer Class are as follows:

Residential Customer Class (Rate Schedules RS; RS Optional Controlled Service Rider; RH; RH Water Heating Option; WH; and GS Special Provision for Volunteer Fire Companies, Non-Profit Senior Citizen Centers, Non-Profit Rescue Squads, and Non-Profit Ambulance Services):

\$1.36 per month.

Commercial Customer Class (Rate Schedules GS, GS Special Provision GSDS, GS Optional Controlled Service Rider, PNP, GM, GM Optional Controlled Service Rider, OH with Cooling Capabilities, OH Without Cooling Capabilities, and WH Non-Residential):

\$1.37 per month.

Industrial Customer Class (Rate Schedules GP and GT):

\$1.26 per month.

Smart Meter Technologies Charge Rider (Continued)

The SMT-C rates by Customer Class shall be calculated in accordance with the formula set forth below:

$$\text{SMT-C} = [((\text{SMT}_C - E) / \text{ACCC}) / 12] \times [1 / (1 - T)]$$

$$\text{SMT}_C = \text{SMT}_{\text{Exp1}} + \text{SMT}_{\text{Exp2}}$$

Where:

SMT-C = The monthly charge by Customer Class as defined by this rider applied to each Customer billed under the Rate Schedules identified in this rider.

SMT_C = The Smart Meter Technologies Costs by Customer Class projected to be incurred by the Company for the SMT-C Computational Year calculated in accordance with the formula shown above.

SMT_{Exp1} = A projection of costs to be incurred associated with the Customer Class specific Smart Meter Technology Procurement and Installation Plan ("Plan") as approved by the Commission for the SMT-C Computation Year by Customer Class including carrying charges on capital costs, depreciation expense, and operational and maintenance expenses. These costs would also include an allocated portion of any projected indirect costs to be incurred benefiting all Customer Classes of the Company's Plan for the SMT-C Computational Year. Any reduction in operating expenses or avoided capital expenditures due to the Smart Metering Program will be deducted from the incremental costs of the Smart Meter Program to derive the net incremental cost that is recoverable. Such reductions shall include any reductions in the Company's current meter and meter reading costs.

SMT_{Exp2} = An allocated portion of incremental administrative start-up costs incurred by the Company through July 31, 2010 in connection with the development of the Company's Plan. These costs to design, create, and obtain Commission approval for the Company's Plan include, but are not limited to, consultant costs, legal fees, and other direct and indirect costs associated with the development and implementation of the Company's Plan in compliance with Commission directives. These costs shall be amortized over the 5-month period ending December 31, 2010. Interest will be calculated monthly on the average of the beginning and end of month cumulative balance of these costs as incurred and included in the determination of the monthly amortized amount. The interest shall be computed based on the legal rate determined pursuant to 41 P.S. § 202.

Smart Meter Technologies Charge Rider (Continued)

- E = The over or under-collection of SMT costs by Customer Class that results from the billing of the SMT-C rates during the SMT Reconciliation Year (an over-collection is denoted by a positive E and an under-collection by a negative E), including applicable interest. Interest shall be computed monthly at the legal rate determined pursuant to 41 P.S. § 202, from the month the over or under-collection occurs to the month that the over-collection is refunded or the under-collection is recovered from Customers in the specific Customer Class. Any reduction in operating expenses or avoided capital expenditures due to the Smart Metering Program will be deducted from the incremental costs of the Smart Meter Program to derive the net incremental cost of the Program that is reconciled to the billed SMT-C rates during the SMT Reconciliation Year. Such reductions shall include any reductions in the Company's current meter and meter reading costs.
- ACCC= The Company's projected Average Customer Class Count for the specific Customer Class for the SMT-C Computational Year.
- T = The Pennsylvania gross receipts tax rate in effect during the billing month expressed in decimal form as reflected in the Company's base rates.

All capitalized terms not otherwise defined in this rider shall have the definitions specified in the Definitions of Terms section of this tariff. For the purpose of this rider, the following additional definitions shall apply:

1. SMT-C Computational Year – The 12-month period from January 1 through the following December 31 with the exception of the initial SMT-C Computational Year that will be the 5-month period from August 1, 2010 through December 31, 2010.
2. SMT-C Reconciliation Year – The 12-month period ending June 30 immediately preceding the SMT-C Computational Year.

The initial SMT-C rates pursuant to this rider shall be effective August 1, 2010 through December 31, 2010. Subsequent SMT-C rates shall be filed with the Commission by August 1 of each year and the SMT-C rates shall become effective the following January 1, unless otherwise ordered by the Commission, and shall remain in effect for a period of one year, unless revised on an interim basis subject to the approval of the Commission. Upon determination that the SMT-C rates, if left unchanged, would result in material over or under-collection of all recoverable costs incurred or expected to be incurred during the then-current SMT-C Computational Year, the Company may request that the Commission approve one or more interim revisions to the SMT-C rates to become effective thirty (30) days from the date of filing, unless otherwise ordered by the Commission.

Smart Meter Technologies Charge Rider (Continued)

The Company shall file an annual report of collections under this rider within thirty (30) days following the conclusion of each SMT-C Reconciliation Year.

At the conclusion of the duration of this reconciliation rider, the Company is authorized to recover or refund any remaining amounts not reconciled at that time under such mechanism as approved by the Commission.

Application of the SMT-C rates shall be subject to annual review and audit by the Commission.

PENNSYLVANIA POWER COMPANY
 Computation of Proposed Smart Technologies Charges ("SMT-C") by Customer Class
 For the Five Months Ending December 31, 2010

Smart Technologies Charge = SMT-C = $\frac{((SMTc - E) / ACCC) / 12}{1 - T} \times [1 / (1 - T)]$

Line No.	Description	All Customer Classes Amounts (2)	Residential Customer Class Computations (3)	Commercial Customer Class Computations (4)	Industrial Customer Class Computations (5)
