SECRETARY'S BUREAU

**Re: Duquesne Light Company – Supplement No. 136 to Tariff Electric – PA. P.U.C.
No. 24; Docket No. M-2014-2401127**

Dear Secretary Chiavetta:

Enclosed for filing, please find an original copy of Supplement No. 136 to Duquesne Light Company's ("Company") Tariff-Electric, PA. P.U.C. No. 24. Both clean and red lined copies of Supplement No. 136 have been included in this submittal. The modifications reflected in Supplement No. 136 relate to the implementation of the Company's Seamless Moves and Instant Connects solution in compliance with the Commission Order dated September 3, 2015 at Docket No. M-2014-2401127. The proposed modifications in Supplement No. 136 implement changes necessary to allow for seamless moves and instant connects, which will allow customers to switch between locations and also start service with an EGS.

If you have any questions regarding the information in this filing, please feel free to contact me or Bill Pfrommer at (412) 393-3623.

Respectfully Submitted,

Adrienne D. Kurtanich
Counsel, Regulatory

NOTICE

THIS TARIFF SUPPLEMENT ADDS TWO RULES TO TARIFF NO. 24

See Page Two

LIST OF MODIFICATIONS MADE BY THIS TARIFF

CHANGES

Rules and Regulations

General Provisions

Rule No. 45.3 Switching Between Locations

**Seventh Revised Page No. 31
Cancelling Sixth Revised Page No. 31**

**Third Revised Page No. 31A
Cancelling Second Revised Page No. 31A**

Rule No. 45.3 Switching Between Locations has been added to retail Tariff No. 24 to allow shopping customers to retain their choice of electric generation supplier when moving from their current location to a new location within the Company's service territory without interruption upon meeting noted eligibility criteria.

Rules and Regulations

General Provisions

Rule No. 45.4 Starting Service With An EGS

**Third Revised Page No. 31A
Cancelling Second Revised Page No. 31A**

Rule No. 45.4 Starting Service With An EGS has been added to retail Tariff No. 24 to provide the ability for customers to begin supply service with an electric generation supplier on "day one" of new utility service – without the customer first having to take default supply service – upon meeting noted eligibility criteria.

RULES AND REGULATIONS - (Continued)**GENERAL PROVISIONS – (Continued)**

45.2 SUPPLIER SWITCHING OPTIONS Customers who take Default Service from the Company may switch to an EGS at any time provided such notice is made to the Company in accordance with the switching protocols in Rule No. 45.1. If a customer's service with an EGS is scheduled to terminate at some future date, that customer may renew that service with the same EGS or enter into a new contract with another EGS for service without returning to Default Service, provided such notice is made in accordance with the switching protocols. The customer may return to Default Service as provided in Rule No. 45.1 at the applicable tariff rates in effect at the time service is rendered to the customer. The customer may initiate the switch from EGS service to return to the Company's Default Service. The Company, however, will permit a customer to return to Default Service in a switch as provided in Rule No. 45.1 initiated by the Customer's EGS through standard EDI procedures in the following circumstances: (1.) the customer's failure to pay for service rendered by the EGS, (2.) the complete abandonment of service in the Company's service area by the customer's EGS, (3.) to remedy a case of inadvertent slamming of the customer, and (4.) the expiration of the term of the customer's contract with the EGS, provided that the customer's contract with the EGS is a standard one commonly used by the EGS to provide service to other customers with similar service requirements and the expiration dates of the contract are not otherwise designed to game supply around Default Service rates by returning the customer to Default Service when wholesale energy prices have increased and EGS service to the customer has become uneconomic. Upon receipt of notice from an EGS to switch a customer from Default Service to the EGS, from one EGS to another or notice from an EGS of the customer's intent to return to Default Service, the Company will provide the customer with a confirmation letter confirming the proposed change of EGS or change to Default Service.

The confirmation letter shall include the date service with the new EGS or Default Service Provider will begin. The confirmation letter shall be mailed by the Company by the end of the next business day following the receipt of the notification from the EGS of the customer's election of an EGS or Default Service. The Company shall obtain a meter read to effectuate the switch of service within the three (3) business days following the receipt by the Company of the electronic enrollment transaction. In instances when the Company does not have advanced metering capability, the Company shall obtain an actual meter read or use an estimated meter read during this period for purposes of the switch to the new Electricity Provider. When an estimated meter read is used, the estimated meter read shall be updated when an actual meter read is obtained, if necessary.

45.3 SWITCHING BETWEEN LOCATIONS Shopping customers may retain their current EGS when moving from one location to a new location within the Company's service territory subject to meeting the eligibility requirements and conditions set forth in this Rule. Eligible customers include all residential customers as well as commercial and industrial customers that use less than 300 kW of demand as defined in the retail Tariff. (C)

The Company will process the EGS move from the current location to the new location provided that the customer has met all of the following criteria:

1. The customer's new location must be in the same rate class as the current location and the customer must maintain the same supplier billing rate, billing option and tax exemption percentage.
2. There must be an active meter at the new location when the customer contacts the Company.
3. The request to start service at the new location and end service at the current location must be made in the same contact with the Company.

RULES AND REGULATIONS - (Continued)**GENERAL PROVISIONS- (Continued)****45.3 SWITCHING BETWEEN LOCATIONS - (Continued)**

(C)

4. At least one (1) business day notice to the Company is required to effectuate the move. Requests to start service on the same day as the request will not be honored nor will the Company allow customers to back-date service.
5. The move will not be allowed for any overlapping service or gaps in service lasting more than three (3) days.
6. An EGS must currently be providing service on the customer's account and any termination of EGS service prior to the customer's move will preclude continued service from the same EGS at the new location by the Company.

If the above criteria have been met, the Company will advise the customer that their EGS supply service will seamlessly move to their new location and the Company will send a new move transaction to the EGS.

The move may be terminated or voided after the move transaction is complete under certain circumstances, including where the customer: 1.) voids or terminates the new account prior to the service start date; 2.) requests to change the service start date on the new account to a date occurring in the past; or 3.) enrolls with a new EGS on the current account before the connection to the new account occurs. In these instances, the Company will send a drop notification to the EGS.

45.4 STARTING SERVICE WITH AN EGS Customers starting new service with the Company will be permitted to begin supply service with an EGS on their start date subject to meeting the eligibility requirements in Rule No. 45.3 and conditions set forth in this Rule.

(C)

The Company will process EGS service to a new customer provided that the customer has met all of the following criteria:

1. the customer has provided notice to the Company at least three (3) business days prior to the start date for new service;
2. the customer will not be permitted to back-date service;
3. the customer has satisfied all requirements to start service at the new location; and
4. the customer has contacted the EGS to initiate supply service.

46. PROVISION OF LOAD DATA The Company will provide to a customer or its authorized representative historical data in accordance with all current regulatory requirements of direct access once each calendar year for no fee. All subsequent requests by the customer, and all requests for historical data by the EGSs or other customer authorized consultant will be provided in accordance with the Supplier Tariff.

47. TAX INDEMNIFICATION If Duquesne Light Company becomes liable under Section 2806(g) or 2809(c) of the Public Utility Code, Pa. C.S. §§ 2806(g) and 2809(f), for Pennsylvania state taxes not paid by an Electric Generation Supplier (EGS), the non-compliant EGS shall indemnify Duquesne for the amount of additional state tax liability imposed upon Duquesne by the Pennsylvania Department of Revenue due to the failure of the EGS to pay or remit to the Commonwealth the tax imposed on its gross receipts under Section 1101 of the Tax Report Code of 1971 or Chapter 28 of Title 66.

(C) – Indicates Change

ISSUED: MAY 27, 2016

EFFECTIVE: JUNE 27, 2016

CERTIFICATE OF SERVICE

I hereby certify that a true and correct copy of the foregoing has been served upon the following persons, in the manner indicated, in accordance with the requirements of 52 Pa. § 1.54 (relating to service by a participant).
