

PENNSYLVANIA PUBLIC UTILITY COMMISSION
Harrisburg, Pennsylvania 17105-3265

Implementation of the Alternative Energy
Portfolio Standards Act of 2004

Public Meeting held October 27, 2016
2404361-LAW
Docket No. L-2014-2404361

STATEMENT OF CHAIRMAN GLADYS M. BROWN

Today, the Commission revisits the revisions to our net metering and interconnection regulations pursuant to the Alternative Energy Portfolio Standards Act (AEPS). The revision to the definition of "utility" included in this iteration of the regulations is an effort to accommodate the concerns voiced by the Independent Regulatory Review Commission, the office of Attorney General, and stakeholders in the rulemaking process. I believe that the revised definition of utility is consistent with the AEPS and is in the public interest.

I also wish to state that the revisions made to these net metering regulations are not an attempt to address any court challenges currently being made regarding net metering tariffs or rules for the very reason that they are "ongoing" and not yet resolved.
