

To the PUC commissioners,

I am writing to encourage you to properly interpret Act 40 in accord with the intent of Governor Wolf and the PA General Assembly. I request that you close the SREC "border" to allow only PA generated SRECs to count. It makes no sense to grandfather in other state's solar energy credits, which have resulted in an oversupply of SREC, and a consequential loss of my investment.

Thanks

Matthew S Matell
